

OUR ADOPTION HERD OF DONKEYS PONIES & GOATS

Ver 1.2

BILLY BEAN Grey/brown gelding Born: **1993**

In 2004 he came from a farm park in Wales which had lost all their livestock during the foot and mouth outbreak in 2001. As he missed all the attention from the visitors he was beginning to misbehave and becoming quite a handful, therefore we were asked to take him in. **Sasha** is now his best buddy.

SASHA Dark brown/black gelding Born **1999** The Children of Chernobyl named him when they visited Sorley Tunnel where he was born. At a year old we took him in. Up until Jan 2008 he was on loan from the Park to a local lady as a companion to her donkey Tilly.

Betsy Light Brown Born: **2012**

Dotty Coloured Born: **2007**

Betsy and Dotty came to us October 2015, they were from a farm just over the river Tamar in Devon. They had been on the farm for a number of years with a couple of different owners. On the last change of ownership the new landowners tried to care for them for over a year but found it difficult so asked us to take them in.

Mini Moo miniature Shetland and Born about 2003

Mini Moo has in old age developed Cushing syndrome which she is now under treatment with medication that cost £80 per month.

BAMBI

Bambi along with **Loaf** needed a new home after their owners had a house fire. **Bambi** is now companion for **Hugo** on Goat Mountain

LOAF

Loaf along with **Bambi** needed a new home after their owners had a house fire.

Loaf loves using the visitor's bench in the evening when the park is closed

PUGH

Pugh a Pigmy goat came from a lady who had many goats, however **Pugh** kept jumping over fences and getting into next doors garden and eating their runner beans! Pugh's best mate is **Loaf**

HUGO

Hugo came to us when he was about six months old. The lady he came from had lots of goats but **Hugo** kept escaping. Here at our Sanctuary he has even managed to jump every fence and even a 4ft 6in stable door! He now roams as he pleases and is a favorite with our visitors.

LILY

She came to the park on the 1st August 2011 from a local lady who rescued her from market to prevent her being bred from. **Lily** has severe problems with her hind legs as her knee joints haven't developed properly. This was caused by people over breeding to produce smaller and smaller Shetlands

ADOPT-A-DONKEY

Or one of our other residents
Tamar Donkey Sanctuary
(Charity No 1138221)

And help with the enormous cost of keeping it for a year
St. Ann's Chapel, Cornwall, PL18 9HW
